

We modernize, develop and quickly deploy new IT capabilities so you can serve people and customers better via intuitive, secure and connected systems.

## MIGRATIONWIZ

### Migration in days, not months

Configure. Schedule. Relax.

With MigrationWiz you simply tell us what you'd like to migrate and inform us on any relevant info needed to access your data. From there we work with MigrationWiz to select one or more of your mailboxes to migrate immediately or we'll schedule them to migrate in the future.

#### What is MigrationWiz?

Made to migrate **enterprise co-existence, mailbox, document, SharePoint, personal archive, enterprise archive, public folder, Cloud storage, and database migration** – MigrationWiz is a speedy Cloud-based email and data migration solution that can migrate *from any source to any destination* easily and effectively. By using one-single common user-interface, all data migrations are performed directly from your web browser.
